Health Services Mission

**“We believe in the promotion and provision of
wholistic health and wellness services,
responsive to our community needs, to affirm
confidence, pride and self-responsibility.”**

Vision Statement

In a healthy community, The community gets its...

- Energy, hope and pride from its youth
- Stability, strength and leadership from its adults
- Wisdom, patience and identity from its elders.

People embrace the value of...

- Family and community
- The unique contribution of every person
- A wholistic, balanced approach to health
- Culture, traditions and history
- Connections to the Creator, each other and every living thing.

Community members express themselves in healthy ways...

- By leading active, healthy lives
- With actions that express self-worth and a hope for the future
- With trust and acceptance when people need to speak, &
- By celebrating their heritage and honoring their elders.

Good things are visible...

- The environment & living spaces are safe, clean & uncrowded
- Community activities are healthy, respectful & safe
- There is a good economy with meaningful employment
- Gifted and inspired youth act in the present and create the future
- People have hope for the future, are determined and work together
- Ceremonies and monuments celebrate a rich culture and history
- The facilities, land, resources and leadership are there to enable community members to act on their desires for a healthy life.

WELLENSS & JUSTICE

Tammy Augustine, Wellness & Justice Manager

Support and assist community members who face mental health challenges or who must deal with crisis or injustice, in ways which promote spiritual and emotional health and healing.

- Mental Health: Psychological /Clinical Assessment & Counseling
- Native Hospital Liaison: Client Services & Advocacy

COMMUNITY HEALTH/PROMOTION AND CLINICAL SERVICES

Carol Ann Levi, Manager

The goal of the program is to offer a broad range of community-based activities that enhance health and well-being. This is accomplished through community awareness events and individual health counselling. These include:

- Injury prevention
- Healthy eating
- Physical activity
- Tobacco control
- Healthy aging/Chronic disease prevention and management
- Health protection (e.g. communicable disease)

Clinical Services

Provide a warm, welcoming and professional atmosphere where community members can have their health and information needs met in a timely and culturally sensitive way.

- Family Physician and Nurse Practitioner Services
- Dietitian Services
- Diabetes Case Manager Services
- Appointments and Walk-in's
- Foot-Care Clinics
- Pre-natal Clinics
- Phlebotomy Clinics
- Well Women Clinics
- Client Support: Booking and scheduling appointments, Advocacy, Referrals, Non-Insured Health Benefits Navigation

Opioid Addictions Clinic

- Care facilitation through Multi-disciplinary team
- Evaluation and intake assessments
- Methadone/Suboxone treatment plans and referrals
- Counseling/traditional ceremonies/group sessions
- Drug Screening

Immunization

To reduce the incidence of vaccine preventable diseases through:

- Routine scheduled immunization for children from birth to 6 years of age.
- School immunization
- Adult immunization
- Flu vaccine clinics
- Community awareness sessions

Communicable Disease Control

- Reduce the incidence and spread of disease through screening, diagnosis, treatment, immunization, contact tracing, education, counseling, follow up and community awareness.
- Provide service for people at high risk for HIV and other blood borne and sexually transmitted infections.

Children's Oral Health

Is a service provided to on-reserve First Nations children. COHI provides dental services to children from birth to age seven, and provides information to their parents/caregivers and expectant parents which will help their children build and maintain healthy smiles right from the start.

Environmental Health

- Community based water monitoring
- House inspections upon request

Aboriginal Diabetes Initiative

- Diabetes Education

A Certified Diabetes Educator and a Chronic Disease Prevention Worker provide diabetes prevention & management programming including:

- Monthly activities focusing on healthy eating and physical activity at the Elsipogtog School.
- Monthly diabetes education activities at EHWC for adults and elders.

- Nutrition Services

A registered dietitian is on site to provide among others:

- Individual and group counseling in nutrition and diet therapy in all areas and across all age spans.
- Nutrition programs and services aimed at fostering change around eating habits to prevent and manage chronic diseases.

- Elsipogtog Fitness Centre

- Open to all community members free of charge.
- A Certified Fitness Trainer is on site.
- Group exercise programs are offered
