Attention: Bryan Zandberg

Dear Registrar:

Re: National Inquiry into Missing and Murdered Indigenous Women and Girls

Pursuant to Rule 33 of the National Inquiry's *Legal Path: Rules of Respectful Practice*, on November 6, 2018, the Government of Canada (Canada) filed the Correctional Service of Canada's (CSC) response to the testimony of the Canadian Association of Elizabeth Fry Societies (CAEFS) panel on "Custodial Issues" on September 19, 2018 in Quebec City. This response has been provided in both official languages.

As stated on the record that day, these Rule 33 submissions are being filed because Canada's proposal to have a CSC witness testify about its policies, practices and programs as part of the hearings that week was not accepted. These submissions provide CSC's response to the evidence of the CAEFS' panel and in particular to the criticisms of CSC's policies, practices and programs. As requested on September 19, 2018, I ask that this submission be distributed to all parties with standing.

Yours truly,

Anne M. Turley
Senior General Counsel

Canada
