Disclaimer

Intimate Partner Violence (IPV) can occur in all relationship types (current and former married, common-law and dating relationships, and irrespective of sexual orientation) and can affect people of all genders. While this behaviour can be directed at male victims, the vast majority of victims of IPV are women, and men tend to more commonly be the abusive partner. Many services listed for victims of IPV are for female victims unless otherwise stated.

Connect with Us

As part of New Brunswick's Crime Prevention and Reduction Strategy, the *Love Shouldn't Hurt* campaign is educating and informing New Brunswickers about intimate partner violence (IPV) and how we can all play a part in putting an end to this serious issue. Interested individuals can follow the campaign on Twitter and Facebook.
