

Instructions

1. To be used (as a guide) to determine the urgency of a search and if a ground search is required; as the figures are only relative, unlisted factors can also be considered and should be noted in the "Comment" field
2. All 7 factors shall only be scored once and independently of one another
3. "Urgency Scores" are allotted based upon the following:
 - 1 = Most urgent/Life threatening (immediate response required)
 - 2 = Urgent (measured response)
 - 3 = Less urgent (more investigation necessary)
4. If any Contributing Factor is "**life threatening**", treat search as rating of 1 (most urgent)
5. "Urgency Score" is determined by adding (+) individual scores of all Contributing Factors, and dividing (+) by the number of factors (7)

Search Urgency Evaluation

Occurrence number		Date completed (yyyy/mm/dd)	Time completed (24hr)
-------------------	--	-----------------------------	-----------------------

Contributing Factor	Description	Possible Rating	Factor Score
1. Age	12 years or younger	1
